**Qpets introduces their high capacity, programmable automatic pet feeder, the AF-200, at Superzoo 2015, in Las Vegas!**

## **QPETS Booth #4121**

**Ontario, CA, June 12, 2015** – Qpets introduces a high capacity, programmable automatic pet feeder, the AF-200, at the pet industry's largest annual trade show, Superzoo 2015, in Las Vegas, NV. The feeder boasts an easy to program panel which dispenses from ¼ to 5 cups of dry kibble up to 4 times per day and can be scheduled for up to 99 days consecutively before requiring reprogramming. The AF-200 is the most advanced electronic feeder on the market today and has clean, sleek design lines. It comes in black with a translucent plastic food hopper with an AC adapter that is available separately.

Since 2003 Qpets has been developing and manufacturing pet products such as LED collars, electronic training collars and Q-Clicker training devices. In more recent years, Qpets introduced their 6 meal electronic feeder, the AF-108, for cats and smaller breed dogs.

**Qpets introduces their 3 in 1 Pet Water Fountain, the WF-300, at Superzoo 2015, in Las Vegas!**

## **QPETS Booth #4121**

**Ontario, CA, June 12, 2015-** Qpets scheduled to introduce their 3 in 1 Pet Water Fountain, the WF-300, at the pet industry's largest annual trade show, Superzoo 2015, in Las Vegas. This new concept in watering fountains has a capacity of 3 Liters of water and nests an 800 ml measuring cup for portioned control food on the same unit. The WF-300 uses a replaceable carbon filter cartridge to keep water crystal clear 24 hours a day. The pump is ultra quiet and includes an LED backlight displaying the water level during operation to ensure the pet owner refills as needed. Made of easy to clean and pet-safe BPA free materials, this fountain will provide clean, fresh water in the same location as the pets' food bowl.

Best known for its pet feeders, introducing the WF-300 Fountain was a natural progression for Qpets in new product development. Since 2003, Qpets has been developing and manufacturing pet products such as LED collars, electronic training collars and Q-Clicker training devices.
