New release of MicroWarriors the special edition. This Film is narrated by Leonard Nimoy and will include a special Bonus Featurette: **“Probiotics and your pet's health”**. Appearing in this segment is probiotic specialist John R. Taylor ND. The formulator of Total-Biotics®. The segment is also narrated by Leonard Nimoy.

John R. Taylor ND, CEO of NWC Naturals® Pet Products Inc. and the Author of the book “The Wonder of Probiotics”. has partnered with executive producer, David Knight and Julie Nimoy (Leonard's daughter), of Health Point Productions, to help raise awareness for the film and educate consumers about the health benefits of probiotics for themselves as well as their pets.

Many pets suffer from skin conditions, inflammation, poor digestion, loose stools, fatigue, lethargy, bad breath and tear stains. When a pet's immune system is suppressed, the pet can suffer from frequent yeast and bacterial infections. Probiotics hold out promise to help pets overcoming these symptoms of a weak immune system.

The film will inform the whole family about the benefits of probiotics. The special edition bonus Featurette: **Probiotics and your pet's health**, is to help educate care takers how important probiotics are for their pets. Our pets face special challenges like: poor diet, poor digestion, use of antibiotics as well as commercial pet food that can contain antibiotics, stress, chlorinated tap water, vaccines/prescriptions and travel. All of these subjects are addressed in this new educational DVD.

This is the first DVD of its kind. You'll find the answers to many of your questions on probiotics. The MicroWarriors Special Edition DVD is the most comprehensive, complete and up-to-date film ever produced on probiotics. Now with Leonard Nimoy's narration and John R. Taylor ND special DVD Bonus feature your pets can **“Live Long and Prosper.”** The general public can pre-order the DVDs now at NWCnaturals.com get yours before everyone else.
