FOR IMMEDIATE RELEASE

Wholistic Pet Organics™ Introduces Two Pound Size of Canine Complete plus Joint Mobility *with Green Lipped Mussel*

SuperZoo Booth #5053

BEDFORD, N.H. – Those pet parents with large four legged friends or perhaps many of them can now make fewer trips to the store and save money at the same time. Since introducing our premium joint line, Canine Complete plus Joint Mobility *with Green Lipped Mussel*, we have received an overwhelming demand to accommodate those high quantity users with our new two pound size. The best part is our two pound size stays just as fresh as the day you open it.

Canine Complete plus Joint Mobility™ *with Green Lipped Mussel* is a super-premium animal health supplement that provides concentrated joint support for Total Body Health™. Made with only the highest quality of certified organic ingredients, Wholistic Canine Complete Joint Mobility™ *with Green Lipped Mussel* is based on a unique blend of pure, premium ingredients including glucosamine, glycosaminoglycan's (GAGs), MSM, Patented Ester C®, hyaluronic acid and our own Digest All Plus™ enzyme complex.

Our Green Lipped Mussel, sourced responsibly from the fresh waters of New Zealand, is a rich source of minerals, hyaluronic acid and contains a unique combination of fatty acids that are not found in any other marine or plant life. With the already present glucosamine, MSM, and Ester C our Canine Complete plus Joint Mobility *with Green Lipped Mussel* helps contribute to the viscosity of synovial fluid, rebuild cartilage, maintain normal, healthy connective tissue in joints, control symptoms of joint discomfort and with the edition of our Patented Ester C®, the most effective, Body-Ready™ form of Vitamin C, also provides a powerful antioxidant.

WHOLISTIC PET ORGANICS™

The secret behind Wholistic Pet Organics™ quality products is simple – they insist on using only the finest whole-food, Certified Organic, human-grade quality ingredients in all their formulas. These premium ingredients provide easily assimilated and digestible nutrients that provide optimal nutrition. Plus, each product is scientifically formulated for high potency, purity and palatability, without the use of chemicals, artificial preservatives or colors. All their products are manufactured in their privately-held, federally-registered and inspected facility in Bedford, New Hampshire.

About Wholistic Pet Organics™

Since 1998, the family owned, Wholistic Pet Organics™ line of animal health care products has made it their goal to maximize the health and well-being of all pets. Their collection of all-natural pet supplements and animal health products has grown to encompass more than 60 different products for canines, felines and equines. Wholistic Pet Organics™ is continually driven by their mission of eliminating avoidable health problems in pets due to poor nutrition. As audited members of NASC, all their products bear the official NASC quality seal. A Wholistic pet is happy & healthy®. For more information on Wholistic Pet Organics™ please call 1-888-452-7263 or visit www.WholisticPetOrganics.com.
