

Creating Better Days to Unveil New Hemp Extract Infused Pet Product and Redesigned Product Line at SuperZoo 2018

Creating Better Days will introduce their new hemp extract infused pet product and redesigned line of endocannabinoid support for pets at SuperZoo this year.

Plantation, Florida – May 30, 2018 – Manufacturer and distributor of hemp extract infused pet products consisting of all-natural hemp CO2 extracts, [Creating Better Days](#) will reveal a new hemp infused peppermint breath spray for dogs and their all-new product line at SuperZoo 2018 between June 26 – June 28 at Mandalay Bay, Las Vegas.

Creating Better Days created Wildlife Hemp to offer high-quality products for pet lovers seeking holistic approaches in adding to their pet's quality of life. All-natural and embodying 100% natural properties, the revamped product line provides essential endocannabinoid support for pets. It includes pet tinctures and all-natural hemp extract infused dog treats that contain additional vitamins, healthy fatty acids, and probiotics with the main ingredients to boost the effectiveness of their well-balanced hemp extract formula.

The company will also introduce the Nano Mist Calming Breath Spray – a nano-amplified hemp oil breath spray for dogs, infused with peppermint oil for added fresh breath. Refined from legal, non-GMO and non-psychoactive hemp, the 100% cruelty-free, all-natural supplement has zero side effects and zero psychoactive properties. Nano-amplified phytocannabinoids are all-natural and developed to be a smaller molecule which means they are more water soluble, have a higher bioavailability, and absorb quicker.

“We are excited to introduce a fast-acting, high-absorption, high-potency product to our Wildlife Hemp line. Our primary goal is to develop better, diverse, high-quality extracts, making them accessible worldwide in creating better days,” said Bruce Vance, Co-Founder of Creating Better Days.

Additional to the new product release, they will be showcasing their Wildlife Hemp Line. Consisted of pet tinctures and pet treats, their formulations deliver a well-balanced and multi-compound hemp extract formula.

Wildlife Hemp pet tinctures are loaded with all-natural hemp CO2 extracts, vitamins, and healthy fatty acids to help support health from nose to tail. They also contain MCT

oil with Wild Alaskan Salmon oil for the skin, coat, hips and joints, heart, and immune system, and probiotics and enzymes to support healthy digestion. Vitamin E and D3 are added to maintain a healthy immune system and support bodily functions. The all-natural hemp extract oils are available in two concentrations for dogs, cats, birds, reptiles, and many others.

Providing many options, Wildlife Hemp offers a number of delicious premium Hemp CO2 Extract Doggy treats that are free of wheat, corn, grain, and options free of wheat, corn, and soy.

“Our pets give us so much love and companionship. They deserve only the best, natural remedies as our loving companions,” said Ronald Briggs, Co-Founder of Creating Better Days.

About Wildlife Hemp:

Wildlife Hemp was developed to offer high quality products for pet-lovers seeking holistic approaches in adding to their pet’s quality of life. From all natural oil to carefully made treats, they believe in creating better days for everyone and their little (or large), loyal side-kicks.

About Creating Better Days:

Creating Better Days is a manufacturer and distributor of hemp extract infused pet products ranging from all-natural oil to carefully made treats. All their products are USA-made, third-party lab tested, and made from all-natural ingredients to ensure the best consistent quality. Besides providing endocannabinoid support for pets, they also help people launch their own brand of hemp extract infused products.

About SuperZoo:

Established by the World Pet Association (WPA) 1950, SuperZoo is the most-attended pet industry trade show in North America. As North America's premier pet retail event, it has made the Trade Show Executive "Gold 100" List, ranking as one of the 100 largest shows of the year.
