A newly patented design that is innovative and uniquely configured for your kitty cat's needs and enjoyment. HAPPYSTACK™ is modular, stacking, nesting, sturdy, easy to assemble, easy to clean and store.

An inviting play area for felines where they can perch, explore, relax, climb, scratch, feel safe and sleep. A cozy personal space for your feline family members as well as a stylish attractive addition to your home.

HAPPYSTACK™ nests inside of the larger units for easy transportation to other locations or storage. Cats like having their own personal space, it's comfortable that HAPPYSTACK™ can travel with them.

Covered in tightly woven indoor outdoor carpet, cats instinctively enjoy scratching on the tough non-ravel carpet, rather than your furniture.

Doorway openings in the side panels and tops allow for access to all levels of the units while leaving plenty of room to lie down.

HAPPYSTACK™ comes in four sizes which may be purchased as a single unit, two, three or all four units.

HAPPYSTACK™ is a playhouse, exercise gym, scratching post, napping place, hiding spot that is easy to handle for the human and fun for the cat!
