(Saint Petersburg, FL – August 20, 2019)

Continuing to build on its #1 brand of TASTY, EASY, and FAST-ACTING liquid dose “nutraceuticals” for animals, Liquid-Vet® by COOL PET Holistics®, a small, woman-owned manufacturer located in St. Petersburg, FL, is presenting three new complete lines at the SuperZoo show in Las Vegas, NV this year. With its category leading Hip & Joint formulas for dogs, cats, and horses already in over 7,000 retail locations worldwide, distributors, retailers, and consumers have been requesting and anxiously awaiting new products from COOL PET Holistics®.

These new Kidney & Bladder, Itch & Allergy, and Teeth & Gums lines are unique to the market in that each offers a choice of natural flavors that pets crave (chicken, pot roast, fresh fish, and bacon) as well as allergy-friendly unflavored options for sensitive pets. No other “supplement” or chew manufacture offers flavor options like Liquid-Vet®. Plus, Liquid-Vet® formulas are EASIER than pills, powders, or chews as they are simply dosed once per day with meals.

Liquid-Vet® Founder and Co-Owner, Jonathan M. Lewis says, “we have been literally working for years in the lab to create these formulas to make sure that they function as promised AND still taste just as great as our other formulas currently on the market. We are very excited for the launch, especially the new bacon flavored SKUs, and expect these new lines to take our small, husband and wife owned and operated business to the next level once again in 2019.”

Learn more about these exciting new Liquid-Vet® products at Booth #1366 at SuperZoo!
