Zero Mineral Hydrogen Pet Water

Sold for over 10 years in Japan. The best drinking water for your Pet's health. What is Hydrogen water? Hydrogen water, as its name implies, is a kind of water that contains dissolved Hydrogen Molecules. These dissolved molecules, when ingested, provide an anti-inflammatory and antioxidant effect. Because of this, numerous health benefits have been associated with drinking hydrogen water.

Why Zero Mineral? It's gentle for animal stomach to remove minerals as much as possible with our technology. Many animal doctors recommend Hydrogen water.

ABOUT OUR COMPANY

TED co.,ltd is established in 2003 in Toyama prefecture in Japan and obtained the Patent license to produce Hydrogen infused water, Patent number: 3606466. It's completed the high quality drinking water in which the hydrogen is dissolved in a high concentration by patent process and the developed aluminum pouch uniquely.
