**FOR IMMEDIATE RELEASE**

**Finally, a CBD brand that pet parents can believe in...**

**Fetch is here to provide an honest, affordable CBD product to help pet parents provide their animals relief through natural, plant based products. See the Fetch difference at SuperZoo 2019**

**Boulder, CO, June 24, 2019-** Why is Fetch the best? Simple: quality, transparency and customer service. Our team is focused on creating the highest quality products at a price that is attainable for all customers and their fur babies. Have a question on how to use or how much to give a pet? Our team is available via phone or web chat almost 24/7!

The market is flooded with products, so why choose Fetch?

Quality is top priority. Fetch uses CO2 extraction, to create a clean, full spectrum CBD oil. The only other ingredient is certified organic fractionated coconut oil. Third party testing from a 17025 accredited lab is standard for each batch of tincture. Potency and residual solvent testing are available online at <https://www.extractlabs.com/quality-control/>. Fetch self regulates itself before being asked to. The company is working on GMP certification, pharmaceutical software integration to step up traceability and only extracts from the highest quality hemp grown in America.

If the quality is so high, how are prices so low? No middleman! Fetch works closely with local Colorado farmers and extracts, refines, formulates and ships all products in-house at our facility in Boulder, CO.

Make Fetch happen! Visit us at **Booth 756** or visit [www.extractlabs.com/fetch](http://www.extractlabs.com/fetch)

### **About Fetch**

Fetch is the first sub-brand of Extract Labs, founded to provide pets with the same honest, affordable products that consumers can trust. Extract Labs was founded in 2016 by combat veteran Craig Henderson, who started the company out of his garage. Two and a half years later, Extract Labs has grown to employ more than 40 people in its Colorado headquarters and even has a second lab in Louisville, Kentucky. Extract Labs is dedicated to introducing consumers to the life-changing potential of CBD. We pride ourselves on providing the purest, highest quality products at the lowest price point, a promise made possible by keeping every step of production in-house.
