UP COUNTRY CELEBRATES 35 YEARS OF FASHION AND FUN

Up Country marks their 35th year in the pet fashion and apparel business with new Made in the USA collars and leads, stylish apparel and home décor, wedding-themed designs, and a renewed effort to give back while looking forward.

PROVIDENCE, RHODE ISLAND, July 16, 2019. For 35 years, Up Country, Inc. has stayed true to their brand and mission by offering superior quality and stylish product for cats and dogs. That alone is something to celebrate! This year, Up Country will be showcasing over 2 dozen new designs, in addition to their current lineup of 100+ styles, at SuperZoo in Las Vegas, Nevada from August 20-22 in booth #6327. Part of Up Country's mission is to offer something for each owner and pet's personalities. Additionally, Up Country will be adding new patterns to their already popular decorative pillow line, impeccable coats and gorgeous sweaters, a wedding-themed collar, and finally, three brand new collar designs that will be debuting at SuperZoo. Also, Up Country is expanding their philanthropic program called [Up Country Cares](#) by continuing to share and support their heart-warming [Adoption Tails program](#), as well as partnering with Dogs on Deployment and more.

"When I started Up Country in 1984, the only dog collars available were either nylon or leather, and they had little to no decoration. People thought I was crazy designing 'fancy' collars for dogs who were just going to roll around in the mud. But those first six designs were the beginning of a dream come true," shared Alice Nichols, Founder. "I'm still driven after 35 years to maintain the high quality of our products, as well as continually evolve the line with gorgeous new patterns that exude personality, charm, and fun. Seeing first-hand, right here in our Rhode Island facility, our collars and leads being hand sewn, pressed, and finished with care, makes me extremely proud. I'm proud of our team, our product, and our Up Country family. Additionally, we like to extend our blessings by looking ahead while giving back to many of the charitable organizations that keep the safety and wellbeing of pets top of mind."
