

K-9 Adventures Introduces Dryland Mushing Technology for Year Round Mushing

Come see us at Booth 6167 at Super Zoo August 20-22, 2019!

K-9 Adventures introduces innovative urban dry mushing technology to North America featuring the Sacco dog cart. Urban Dog Mushing is the newest sensation in active dogs and owners coming together for exercise and excitement on any dryland surface including but not limited to sand, dirt, grass, rock or cool pavement if safety precautions are met to insure the safety of your dog's feet and joints. We proudly present the new fold-able Sacco cart 2019. Sacco is an internationally known producer and supplier of recreational dog carts, with customers that span the globe.

With four wheels and hydraulic brakes on all wheels, our customers can enjoy the dry mushing to the fullest. We offer the safest and most durable cart in the carting world and have great pride and

confidence in the quality of our product. So people can have a fun and safe experience with their dog. The Sacco cart is world renowned as urban mushing's top of the line cart. Boasting number one in safety and comfort.

It is our goal to bring the Sacco cart into more homes and appeal to not only the mushers but to anyone who wants to enjoy time with their high energy dog. Mushing- it's not just for winter anymore!
